

Take control of your innovation and growth

Socotra CorePlus Auto is a complete insurance IT solution, specifically tailored for personal auto insurance, powered by Socotra Connected Core and seamlessly integrated with industry-leading software and data providers via the App MarketPlace.

CorePlus Auto puts you in the driver's seat with flexible, market-ready features that deliver agility, superior user experiences for producers and policyholders, and more innovative features than are currently available from any one vendor.

-+ Modernize your insurance operations and create efficiency with fully integrated modern insurance solutions that will increase speed to market and reduce costs
-+ Provide a digital user experience to capture more quotes and accelerate sales
-+ Eliminate manual duplicate effort and increase accuracy with pre-filled customer data
-+ Streamline quote, onboarding, and data analysis through connected third-party apps
-+ Increase capacity with rapid policy processing and servicing of payments, claims, and more with pre-built streamlined personal auto workflows and integrated services
-+ Speed decisions with straight through processing and inject the human touch with underwriting referrals as required
-+ Insightfully manage producer relationships and results through holistic views and timely reports
-+ Expand your insurance ecosystem, and further enhance your insurance products with instant access to App MarketPlace that reduces integration costs and risk
